If you ever have been rejected by women when you ask her to be your girlfriend, and wondering why, this post might help you get the answer. So let's just check it out, Matey!

Let's say you already knew a very cute, thin, sexy, long-haired brunette, and then you asked her to be your girlfriend, then she says, "sorry, I can't be your girlfriend..." BAM! Yupz, she rejected you, and you wondering why. Here are the possible reasons why a girl might reject you :

1. She is already taken

One of the simplest reasons why a woman rejected you is because she already has a boyfriend or husband. Well, if she is not available, don't be too disappointed, it's not your fault. Don't get involved with their relationship, go for another woman who's still available.

2. Bad mood

Another simple reason. Perhaps you approach/confess a woman whose dog died one hour ago. So any attempt to engage her in conversation will be deadlocked.

You need to examine her condition before taking action. If she looks mad or depressed, then you shouldn't ask her to be your girlfriend.

3. She doesn't know you well

In Bad Boys principle, you shouldn't confess love to a woman you don't know, and she doesn't know you! Men often just get impressed by her beauty and sexiness, yet her personality and character is still a mystery, but you already think, "I want her to be my girlfriend!". That's silly! Get to know her, and get her to know a little bit about you.

4. She just hurt

There are times in a woman's life where she is not interested to talk to a man. One of the reasons is because there's another man who just hurt her. It makes your efforts will be useless. Give her time to heal herself. You can also help her by making her smile again.

5. She's not attracted to you

Perhaps you're not attractive. Nope...it's not about your face or your car. Keep this in mind, women love attractive man's personality and his attractive life. Just look at yourself, are you fun or boring? Do you have passion or not? You have social life or just a forever-alone guy?

6. You're friendzoned

Very common reason that almost every guy ever experienced. She just treats you as her friend...sometimes her gay best friend. It's your mistake by treating her just like your friend since the first time you both meet. So the longer, she just treats you as her best friend, and rejects your love...because she's afraid the friendship will be broken.

7. You're not a Bad Boy

Let's say you are good-looking, rich, and buffy, but she still rejects you, so what could go possibly wrong? Simply put, you're not an Bad Boy! Alpha Man character is the number one trait to make her really love you! Not your face, not your money, not your car, not your six-pack abs!
